

# THE WALL HUGGER™ LINE

*Now with Additional Features & Accessories!*

These sleek receptacles are ideal for use anywhere that space is at a premium. In addition to being attractive, they are designed to be highly functional. Many convenient features such as a molded-in bag cinch, optional handles and a variety of lid designs have been incorporated. Our new Steel Dolly can be added to provide ease of mobility.

**NOW AVAILABLE  
in 16 & 23 GALLON  
CAPACITY!**

Our new 16 gallon Wall Hugger™ receptacle with the Drop Shot lid or single dolly fits in the same space as our 23 gallon Wall Hugger™ receptacle.

The updated design of the Continental® Wall Hugger™ receptacle is sleek and attractive. The line has been expanded to include a 16 gallon Wall Hugger™ which, like the 23 gallon version, protrudes less than one foot from the wall! The smooth seamless design provides prolonged life and promotes easy cleaning. Wall Hugger™ is ideal for the kitchen, bar, rest room, break room or cafeteria.

The expanded line of Wall Hugger™ Receptacles now includes a version with molded-in handles for ease of transport.

Molded-in Bag Cinch eliminates the need to tie knots in the polyliner to keep it secure around the receptacle rim!

Molded-in hand grips in the receptacle base provide a secure area to grasp when lifting and dumping.

Wall Hugger™ is also a perfect space saving recycler that can be matched to any of our new style Wall Hugger™ Recycle Lids. These new color-coded lids make identification easier, which encourage users to sort their recyclables, and are designed to fit any Wall Hugger™ style receptacle. Add our new Quad-Collection Dolly and you have a complete recycling station to sort and transport recycled materials efficiently and neatly!

Wall Hugger™ Recycle Lids come with trilingual (Eng/Sp/Fr) "Recycle Material ID Labels" to make sorting easy!

The Drop Shot Lid has a 8<sup>1</sup>/<sub>4</sub>" x 16<sup>3</sup>/<sub>4</sub>" opening - the largest available for this style receptacle! This conceals waste while providing an inviting, enlarged opening for hands free waste disposal.

Our popular Push Door Lids are self-closing, trapping odors and refuse inside. The large front opening encourages use.

The new black, powder-coated, steel Dolly with 3", non-marking, all swivel casters creates a mobile waste collection system, when added to any Wall Hugger™.

The Half Round Wall Hugger™, with its impressive 21 gallon capacity, is ideal for today's space-efficient workplace. The rounded corner design fits into the tightest spaces while remaining unobtrusive!

The Optional Mounting Bracket, 8319, securely attaches any Wall Hugger™ Receptacle to the wall, suspending it above the floor. Elevating the receptacle allows easy cleaning of the floor under and around the receptacle.
