STYLISH & PRACTICAL

DuraView by Kutol is the large capacity dispensing system that is first in its class for appearance, security and performance. Available in 2000mL and 4500mL sizes, the DuraView system utilizes a replaceable cartridge and dispenser combination. Skin care product comes already attached inside the waterproof, heavy-duty PVC cartridge. When it's time to refill, simply throw out the old cartridge and insert the new one - lock in place and you're ready to go! In addition to being great looking, the dynamic design creates the ultimate view window, eliminating all guessing about product-type and soap level.

Both the 2000mL and 4500mL cartridges utilize the same durable dispenser, making installation simple.
