KUTOL INDUSTRIAL PRODUCTS

Tough soaps for tough environments.

KUTOL PRODUCTS COMPANY

Established in 1912, Kutol Products Company has enjoyed a long and successful history in the hand hygiene business. We manufacture 100% of our products in our modern, FDA-registered facility in accordance with stringent government guidelines. You can buy from us with confidence, knowing that all products are manufactured in compliance with government regulations and Good Manufacturing Practices.

OUR EXPERTISE IN INDUSTRIAL SOILS

From the first industrial products we made until now, we have built on our extensive experience to perfect hand cleaners that are tough on soil. Whether it's motor oil, grease, paint or adhesives, Kutol has developed, tested, and retested targeted formulas that clean away stubborn dirt. In addition to the industrial products featured, Kutol is well-equipped to provide you with any customized formulas and packages you may need.

LIT-KIN-0609

Tough soaps for tough environments.

Industrial soils are tough - but Kutol industrial hand cleaners are tougher. Our full line of skin cleaners are excellent for removing difficult industrial soils that cling to skin. From large-capacity systems, to gallons and convenient 4 oz. bottles, we have the dispensing system that best suits your working environment.

Cut through tough soils quickly and help increase worker productivity with the expert, workplace-proven formulas from Kutol.

Flat top Gallons

The most versatile dispensing system, flat top gallons can be used on both counter and wall. Add a cost effective pump to make counter dispensing easy, or, choose from a variety of wall units to save counter-top space.

The Science Behind Kutol Industrial Products

Solvents ...reduce the surface tension of water, disperse soils, and make unwanted particles easy to remove.

Organic solvents (d'limonene) ...dissolve "like" molecules in organic substances such as grease. Found in peels of citrus fruit, d'limonene is biodegradable.

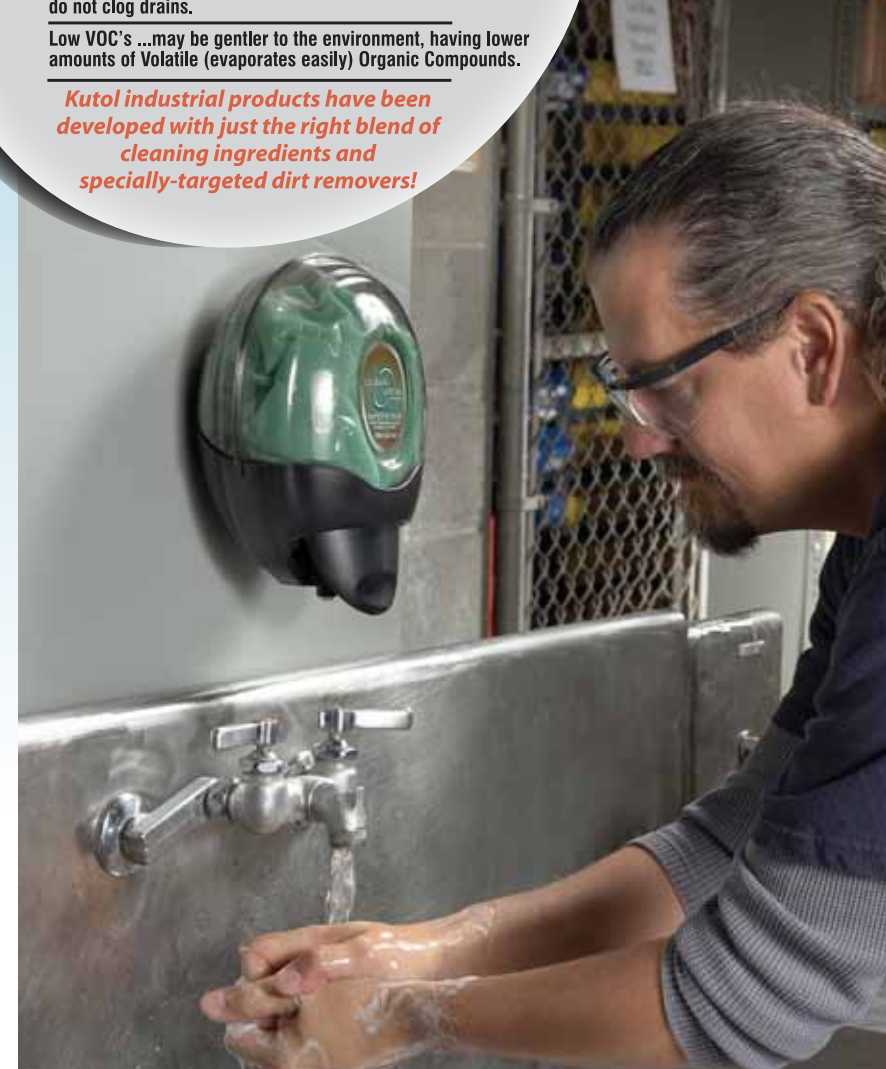

Surfactants ...help water spread out and attach to dirt molecules, enabling dirt lifting and removal.

Pumice ...cleans in tiny areas and is biodegradable. It is a natural abrasive that comes from volcanic rock.

Plastic scrubbers ...add cleaning power without harshness and do not clog drains.

Low VOC's ...may be gentler to the environment, having lower amounts of Volatile (evaporates easily) Organic Compounds.

Kutol industrial products have been developed with just the right blend of cleaning ingredients and specially-targeted dirt removers!
