INNOVATIVE REFILLING FROM ABOVE THE COUNTER

NO messy soap

NO under counter refilling

Refill dock

Eliminate Contamination Risk

EZ Foam Counter Mount features a unique refill "dock" that remains sealed until the nozzle of the refill bag is inserted and locked in place.

Clean, Quick and Convenient

No messy pumps and no need to crawl on the floor. EZ Foam Counter Mount refills from above the counter using the self contained sealed refill bags. To refill, simply remove the foaming pump head from its locked position, insert the bag nozzle into the refill dock, turn to open the nozzle, and soap will flow quickly from the refill bag to the sealed reservoir below the counter. "Top-off" the soap whenever you like, no need to wait until the reservoir is empty.

Multi-lingual Labeling with Easy-to-follow Instructions

Each bag of soap is individually labeled in English, French and Spanish, and the filling instructions are clearly illustrated.

Attractive in Every Application

Choose the sleek and contemporary black and polished stainless steel combination, or the optional ivory and polished stainless steel.

Economical to Use

EZ Foam Counter Mount uses just .75mL of liquid to produce enough foam to complete a hand washing, versus traditional liquid that typically requires 1.5mL or more.

ADA Compliant

EZ Foam Counter Mount can be operated with one hand, requiring less than 5 lbs. of pressure to dispense product.

Durable Design

EZ Foam Counter Mount is made from durable ABS plastic and features real stainless steel accents.

Fits New and Existing Installations

Designed to be the ideal replacement for existing counter mount systems or the perfect choice for new installations. Requires a 1" diameter hole through the counter.

Sealed Soap Reservoir

Unique patent pending design seals the refillable bag inside a durable plastic housing. When the reservoir is full, it will provide approximately 1300 hand washings. Refill from above the counter as needed, never run out of soap.
